Dear Congressman Payne:

A memo was sent to all tenant who owned vehicles and used the parking lots @ Somerset Huntington Homes Apt, stating that we should come to the office to receive a sticker for our cars. This sticker would prevent our vehicles from being towed by the company they had just signed a contract with. Prior to this contract there had not been a towing company with them for over two years. When I went to receive my sticker Mr Wiggins told me that I couldn't have one because my car wasn't insured, and that I had to move my car

Sincerely,

Bonnie Williams

by July 31, 2004 or it will be towed away. Ms Wiggins also knew my financial status and that my car was not in moving condition. I asked her if I could have a temporary sticker she said no. At one point Ms Wiggins told me that she knew someone who would buy my car if I decided to sell it. I was left in a situation where I didn't know what to do.

On July 30, 2004 @ 3:00 AM my car was towed away. The towing company wanted \$360.00 for the first day + \$30.00 every additional day. They still have my car, and when I called them they wanted me to give them the Key + title for "even exchange".

After reviewing my lease, there is nothing stating that my car could not be parked in the lot without being insured.

I need your help to resolved this matter

Thank you
Bryna Williams
